Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 21 November 2003.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.

DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

Species 1 is drawn to a signal generating section implementing an adjustable delay section along with first and second subtracting sections for generating the main and noise reference signals as in figures 16A and 17A, "Embodiments 7 & 8" pgs.65-70 of Applicant's Specification, as pertaining to claims 5, 6, 18 and 19.

Species 2 is drawn to a signal generating section implementing a signal adding section for generating the main signal and a signal subtraction section for generating the noise reference signal as in figure 19, "Embodiment 10" pgs. 73-74 of Applicant's Specification, as pertaining to claims 8, 10, 21, 23, 24 and 26.

Species 3 is drawn to a signal generating section implementing an inverse combining section and a combining section for generating the main signal and the noise reference signal as in figure 20, "Embodiment 11" pg. 75 of Applicant's Specification, as pertaining to claims 9, 22 and 25.

The species are independent or distinct because each species describes a different signal generating section for generating the main signal and the noise reference signal..

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-4, 7, 11-17, 20 and 27-28 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.
MPEP § 809.02(a).
